Optional Hardware / Accessories Order Information:

(Software will run from any 2000, XP or later version of Windows operating system, including servers. It does not require a dedicated computer because it runs in the system tray. No other requirements other than an RS-232 serial (COM) port to connect to your receiver. LAN/Internet access is required if you want to send email/text messages. If your computer doesn't have a serial port, you can add any standard serial card or USB adapter. We also sell inexpensive USB to RS-232 adapters.)

DESCRIPTION	PRICE EACH	QUANTITY
USB2COM Adapter (USB 1.1/2.0 adapter provides RS-232 port)	\$25	<input type="text"/>
RS-232 Test Kit (Includes DB9 and DB25 solder cup connectors and hoods - 2 of each. Includes gender benders and 9-25 adapters. Includes RS-232 mini-tester and loop back tester to test your COM port.	\$25	<input type="text"/>
Custom Serial Cable (Most receivers require a simple 2-wire signal/ground connection you can make yourself with a simple DB9 (or 25) pin solder cup connectors purchased at any Radio Shack)	\$35 FOR 10 FEET (Add 50 cents per extra foot)	<input type="text"/>

Shipping:

☐ US Priority Mail/ UPS Ground \$10

☐ 2-Day UPS \$30

☐ UPS Overnight \$50

Please note: Software and documentation is sent via electronic download link. Software is provided under standard EULA. Software is used as is. You assume all risk for use. Software is non-transferable. You can terminate use at any time.

Software can run for 30 days as a demo. An unlock code will be provided in order to operate the software past that date. Serial ports and RS-232 kits ship same day. Allow 3-4 days for custom-made cables plus shipping time. All times are non-refundable after 30 days.
